"Freedom means being able to think about what we do, being able to assess what is good and what is bad,..it means always opting for the good. Let us be free for goodness. And in this do not be afraid to go against the tide, even if it is not easy! Always being free to choose goodness is demanding but it will make you into people with a backbone who can face life, people with courage and patience."

Pope Francis Homily address to students of Jesuit Schools of Italy and Albania. 6/7/13
