Vertical Garden

Video questions

What is the purpose of a vertical garden?	
List the materials it is made from. Explain why these materials are a good choice for the community. (Think about the characteristics and properties of the materials. Are the materials easily available? Will they last a long time? Does using these materials have a little or large impact on the local environment?)	
What equipment and/or tools were used to build the vertical garden?	
Who will use it?	
What do I like about the vertical garden?	
Would I like to have a vertical garden? Why/why not?	
How has this community considered sustainability* in their design? *Sustainable patterns of living meet the needs of the present without compromising the ability of future generations to meet their needs.	
How can it be improved? (Keep in mind the resources available to the community.)	

Tippy tap
