

# THE BIG WATER WALK

## PLEASE SPONSOR ME

This Lent, I'm taking part in The BIG Water Walk with my school to help bring clean, safe water to vulnerable communities in need.

Every day, 292 million people around the world walk more than 30 minutes just to collect water. I'll be walking in solidarity with them - raising awareness and funds to help provide clean, safe water for those who need it most.

Project Compassion 2026 shares the story of 13-year-old Sisilia from northern Tanzania. She used to walk long, dangerous distances to collect dirty water, often making her sick and causing her to miss out on school.

Thanks to the support of Caritas Australia's partners, Sisilia's village and school now have clean water taps, making it quick and safe for her and her family and peers to access water. She can focus on her studies, stay healthy, and help her community maintain good hygiene.

Your support by sponsoring me through The BIG Water Walk helps children like Sisilia access clean water, stay healthy, and continue their education — giving them the chance to build a brighter future.

### Will you please sponsor me?

Every step I take and every dollar I raise will help change lives in Africa, Asia, and the Pacific.
